

HARDEEP SHIYANI

TECH LEAD | SOFTWARE & DEVOPS DEVELOPER

hardeepshiyani5@gmail.com | hardeepshiyani.in | linkedin.com/in/hardeep-shiyani | Dahisar(East), Mumbai

SUMMARY

Hands-on Tech Lead with 6+ years of experience who still writes the code - leading full development lifecycles from **PHP Laravel and Node.js backends to AWS infrastructure and GitLab CI/CD** and **drives AI-driven development** (OpenSpec + AI coding assistants) that ships features **40-50% faster**. Track record: **30% faster deployments, 40% better system stability, 15% higher code quality**.

SKILLS

AI-Driven Dev	: OpenSpec (spec-first, token-saving workflows), AI coding assistants (planning, review, debugging)
Programming	: PHP, Laravel, Node.js, JavaScript, jQuery
Cloud & DevOps	: AWS (EC2, RDS, S3, IAM), Docker, GitLab CI/CD
Database	: MySQL, SQL, Firebase
Soft Skills	: Leadership, Troubleshooting, Code Reviews, Collaboration

PROFESSIONAL EXPERIENCE

Indigital Technologies LLP

Jan 2022 – Present

Tech Lead (Apr 2025 – Present)

- Drive end-to-end delivery of client projects across PHP Laravel, Node.js, Python, and AWS - from architectural decisions through production deployment - serving as the single technical owner accountable for timelines and quality.
- Led adoption of **AI-driven development** using OpenSpec's spec-first, token-efficient workflow with AI coding assistants for planning and review - cutting feature delivery time by **40-50%**.
- Lead a team of 7+ developers through code reviews, architecture sessions, and 1:1 mentoring - reducing review cycle time and onboarding ramp-up - while translating stakeholder requirements into technical roadmaps.
- Own all **AWS infrastructure decisions (EC2, RDS, S3, IAM)**, including right-sizing, IAM policies, and backup strategies that eliminated unplanned downtime.

Sr. Software Developer (Apr 2023 – Mar 2025)

- Architected multi-tenant platforms on PHP Laravel and Node.js, including a B2B order management system serving salesmen across India.
- Built GitLab CI/CD pipelines cutting deployment time by 30%, while modernizing legacy code and mentoring 2 junior developers.

Software Developer (Jan 2022 - Mar 2023)

- Improved system stability across PHP Laravel and Node.js applications by introducing structured unit testing, error logging, and a formal debugging process.
- Raised code quality by 15% through mandatory peer reviews with documented feedback criteria, and formalized requirement capture templates adopted across the team.

Jr. Software Developer, Mukesoft IT Consultants

Mar 2020 – Dec 2021

- Delivered custom software solutions for multiple clients, managing feature rollouts end-to-end and resolving production issues.

PROJECTS

hTunnel

2026 | Open Source

Laravel 12 | Go | WebSockets | Cross-platform CLI | github.com/hardeep-97/hTunnel

- Built and open-sourced hTunnel, a self-hosted ngrok alternative exposing local dev servers via a Go-powered WebSocket gateway with a cross-platform CLI, solving vendor lock-in and privacy concerns.

Sweet Night Admin

2025-2026 | Freelance

Laravel 12 | MySQL | Hostinger VPS

- Designed a B2B order management platform for a pan-India FMCG distributor, enabling 50+ salesmen to place and track orders in real time with role-based admin controls.

EDUCATION

B.E. in Computer Engineering – Universal College of Engineering (2016–2019) – CGPA: 8.25

Diploma in Computer Engineering – SVP Polytechnic (2013–2016) – 71%

10th Grade – SVP Vidhyalaya (2013) – 77.64%

ADDITIONAL INFORMATION

- **Languages:** English, Hindi, Gujarati, Marathi
- The paper titled 'E-Price Negotiator', published in the UGC-approved Journal of Emerging Technologies and Innovative Research (JETIR), Volume 6, Issue 3, March 2019 (Impact Factor: 5.87).
